

CORPORATE VOLUNTEER OPPORTUNITY

AT THE ONTARIO SPCA & HUMANE SOCIETY

The Need

Imagine having nowhere to go in the rain, snow or harsh temperatures. Trying to survive the outdoors in extreme weather can be challenging and even life threatening for feral cats, who brave the elements on their own. You and your team can provide safe and sustainable shelters for feral cats in our communities so they can keep warm on those cold winter nights!

Volunteer Opportunity

Suitable for 10-12 volunteers
With direction from our team, volunteers will build durable and sustainable cat shelters

Agenda

This two and a half hour volunteer activity includes guided building time, a tour and light refreshments

Commitment:

The cost to participate in this program is \$2,500 but the impact that you will have on animals lives is priceless!

The Purrr-ks

In addition to making a difference for animals in need, your team will receive recognition in an official Ontario SPCA blog post

The Impact

After participating in this impactful and rewarding team-building experience, your group will leave knowing that they engaged in meaningful work, addressing a serious need in our feral cat communities across the province.
